Glow

WITH SARAH CHAPMAN, BAMFORD, VOYA AND GROUND WELLBEING

We have deliberately chosen to work with boutique product houses from the British Isles, all of whom share our ethos of authenticity and well-being.

Sarah Chapman has become London's most sought after facialist, and has something to do with the glowy, flawless skin of many famous faces! Herb House is one of only three destinations in the UK, including Sarah's Chelsea clinic, that you can experience a Sarah Chapman facial.

Carole Bamford is an influential champion of natural living, and her company Bamford is a long-standing partner of Lime Wood and Herb House. Bamford's products combine modern cosmetic science with natural essential oils which blend and perform beautifully whilst balancing both mind and body. All ingredients are responsibly sourced and organic, and Bamford is accredited by the Soil Association.

Three generations of the Walton family have scientifically harnessed the healing properties of seaweed from Ireland's northwest coast and created VOYA, organic beauty products and treatments from the sea. With sustainability at its heart, this revolutionary range of Soil Association certified organic products and treatments is a showcase of how science can release nature's most powerful resources and still protect the earth.

Founder Peigin has spent over 20 years crafting distinctive and transformative wellness products and treatments. Born at her kitchen table in 2020, Peigin's true passion lies in developing spa treatments and wellness products, with the aim of making self-care accessible to all. What our members think

"At the beginning of the year, I took the leap and committed to the Full Works Membership. The main reason for this was to take advantage of the weekly personal training sessions, which have proven invaluable. The team are fantastic; pushing me and being very encouraging. Justin is great and his belief in me means that I am running further than I have in years! I have several friends booked in to use my guest passes and I have loved my complimentary spa treatments (my reward for not skipping any personal training sessions!). I am saving my complimentary 3 course dinner for a special occasion."

Kate Gazzard

"The gym set up is a major progression for those like me who want to maintain fitness in the most effective way. The equipment offers an infinite combination of workouts which is why the induction and initial assessment are so important in designing a bespoke programme that I access on the Wellness App. Well done to the team for adding a new dimension to the fantastic facilities at The Herb House that I continue to enjoy after nearly ten years."
